DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on February 3, 2005 has been considered by the examiner.

Response to Amendment

2. The preliminary amendment filed June 28, 2004 has been entered.

Allowable Subject Matter

3. Claims 1-15 are allowed. The following is an examiner's statement of reasons for allowance: The prior art does not teach the claimed permanent magnet excited machine including, inter alia, a filling space receiving flux conduction liquid, wherein the quantity of flux conduction liquid in the filling space may be changed during operation in dependency of the rotational speed of the machine.

The prior art such as Danilevich teaches a stator with a passage 4 in which flux conduction (ferromagnetic) liquid flows; however, there is no teaching that the quantity of flux conduction liquid in the passage depends on the rotational speed of the machine. Rather, in Danilevich, the ferromagnetic liquid is pumped by a pump 9 at a certain flow speed to cool the machine (c.6, lines 1-5).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Burton S. Mullins whose telephone number is 571-272-2029. The examiner can normally be reached on Monday-Friday, 9 am to 5 pm. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Darren Schuberg can be reached on 571-272-2044.
